Which is the best method/time to reach you? _____

We have appointments during the day on Saturday, and on Tuesday, and Thursday evenings. Which works best for you? _____

This is an optional but very helpful question. Did you have a particular budget you were aiming for? This is always awkward. It is helpful to us so that we may create something you enjoy looking at but not more than you wanted to invest. We have tried to provide you a feel for what each of these price levels creates. You may check off more than one box.

- Under \$500. This is generally a “no frills” landscape. Plant sizes will be smallish. This price can work on a smaller (30-35 feet) area. The design will likely be simple.
- \$500 to \$750. A step up from above. On more compact (30-35 foot) properties it will create a very workable landscape. Larger properties will have smaller plants needing time to grow in
- \$750 to \$1100. This level gives us a little bit more room to be creative. Some of the plants can be a little larger. There may be room for a specimen plant.
- \$1100 to \$1500. Most homes can be landscaped adequately/decently for this level. This allows for a specimen plant, and more impact.
- \$1500 to \$2000. This is what car dealers might call “comfortably appointed”. Moderate sized areas can include a number of more established plants along with a specimen plant and tree. Larger (60 foot) areas can still be landscaped for this, but not all plants will be larger sized.
- \$2000 to \$3000. This will typically provide for plenty of plants for a larger (60 foot) area. Plants will be moderate sized and more established. This also provides for some unusual plants and a specimen plant or two.
- \$3000 and up. If you have a particularly large area, or are looking for more of an “instant” effect, this is the price level that will accommodate that.

How high off the ground are the bottoms of your first floor windows? _____

Attach several snapshots (with notes as needed) of your house that give us a feel for the home and lot.

Are there any colors you particularly like or dislike? _____

Are there any plants or types of plants that you like or dislike? You may not have a preference, or know the exact name, just answer as you are able. _____

What is the total width of your house across the front? _____

How much do you enjoy working in your yard?

1	2	3	4	5	6	7	8	9	10
I'd rather sit in traffic		There are worse things		If I had the time, but...		It gives me a sense of accomplishment			It is heavenly

What style of landscape do you like the most?

1	2	3	4	5	6	7	8	9	10
Formal - a very tightly trimmed, manicured, symmetrical landscape		Some natural elements are OK, but this is a landscape after all			Informal parts are nice but a manicured accent plant works for me too			Natural - a loose and open appearing landscape	

What time does this area start getting full, direct sun? _____ and stop getting full, direct sun? _____
